The cost for ALS1 and ALS2 courses includes course centre access to all the materials, individual candidate course registration, course manual and certificate.

Course centres set their own fees for course attendance. This may include costs incurred by the organisation to facilitate the course including venue, faculty, catering and other costs. The Australian Resuscitation Council set fees for each course to provide a manual and

certification.

These fee are:

ALS1: $77 per course participant.

ALS2: $175 per course participant

Course Centres costs vary and result in differences in candidate fees for attending the course.

The Australian Resuscitation Council also makes manuals available through the website shop without course registration and certification.
